NORTHFIELD, MINNESOTA, THURSDAY, MARCH 7, 1963

## Lease Dairy Queen Here

• Mr. and Mrs. Manning Boddy, owners and operators of the Dairy Queen drive-in the past nine years, announce that they have leased the building and equipment to Mr. and Mrs. Robert Manderfeld, formerly of the Faribault community, shown in the above picture with their daughter, Robin, age seven months.

Last year the Manderfelds operated Dairy Queens in Hurley, Wis., and St. Paul. Previously Mrs. Manderfeld had six years' experience with the Faribault Dairy Queen. The family has resided in Northfield the past several months.

The new operators of the drive-in plan a number of improvements to speed service. They have been trained to formulate new items to be added from time to time and they will continue to serve beef sandwiches and hot dogs in addition to

the full line of sundaes, cones and malts.

Mr. and Mrs. Boddy, who are still in Clearwater, Fla., will soon return to Minnesota and will reside in their former home at 4320 Abbott Avenue South, Minneapolis. They invite Northfield friends to visit them in their Minneapolis home and in turn they will stop in at the Dairy Queen from time to time to renew local friendships.

The Boddys say they have thoroughly enjoyed their nine years in Northfield and have found the people of this community to be "exceptionally honest, intelligent, interesting and friendly."

The new operators will hold the Dairy Queen annual spring opening Sunday, March 10, at which time they will feature a special sundae sale—two sundaes for the price of one, plus one cent.—News Photo by Haines Cook.
